Dear Calvin,

Please find attached CES' response to EPA's Technical Evaluation Comments and Information Request #2 for our Class VI UIC permit application with ***Confidential Business Information (CBI)***.

Per our correspondence, I have password protected the attached file in order to maintain security. I will call you later today with the password necessary to open the file.

Thank you again and as always, let me know if you have any questions.

Kind Regards,
-Rebecca

Thanks, Calvin.

Regarding our submission without Confidential Business Information (CBI), it appears it was only user err. I was thrown by the other information request tabs. You should have now received the notification from the GS Data Tool regarding our submission.

I will send a separate email with our Response to EPA's Technical Evaluation Comments and Information Request #2 containing CBI and call you this afternoon with the password.

Thanks again,

-Rebecca

Hi Rebecca,

I have not received a GSDT notification email regarding the response submission. Missed the due date by a business day is okay.

You can send me the other version of the response using the pervious method.

Best regards,
Calvin

Hi Calvin,

I hope this email finds you well.

I uploaded our Response to EPA's Technical Evaluation Comments and Information Request #2 to the GS Data Tool site today. It appears the file was accepted but wanted to make sure you received it - looks like we missed the 31-Oct-2020 deadline by a (business) day.

Also, per our discussion, the version uploaded to site does not include Confidential Business Information (CBI). So, I would like to make arrangements to directly send you a secure version that contains the CBI material. I am hoping we can use the method we have used in the past by emailing a password protecting a PDF-file.
Please let me know your thoughts.

Thanks again and happy Monday,
-Rebecca
